

TELN 1024 Vehicle Status Annunciator

Shows the status of up to 20 vehicle loads on a single control panel

Description

The vehicle status annunciator shows the status of all vehicle loads on a single control panel. Each load status is indicated with a tristate LED (red/green/yellow). A horn announces a fault condition.

The vehicle status annunciator handles up to 20 points.

Included on the annunciator panel are one TEST button, and ACKNOWLEDGE button, a CLEAR button, and a general purpose control switch. Pockets to accommodate 0.15" high user definable labels are provided for each indicator.
