

TELN 1208 LCD Module

Used to expand the Dashboard Meter Cluster (TELN 1025)

Description

The LCD module is used to expand the Technon dashboard meter cluster (TELN 1025).

This module consists of a small PC board with one 4-digit LCD display of 1/2" character height, and one 2-color LED indicator.

The LCD module connects to the TELN 1025 with a single multiconductor cable. Two LCD modules can be connected to a single TELN 1025.

Specifications

- Voltage: 7.5V – 15V DC
- Expanded voltage available
- Operating temperature: -40° C to +85° C

Interface Information

- Direct connect
- 78K Transformer coupled
- 1250K Transformer coupled
- Termination available in 0.2" termination or in Technon Interface Standard

Dimensions

1.375" w x 3.375" h

Simple. Sensible. Smart.
